ABOUT THE PROJECT

Golf Trails is a new golf-oriented residential development by **Emaar Properties** within **Emaar South**, one of the developer's major master-planned communities in Dubai South. The project is positioned alongside the community's championship golf course, combining contemporary residences with expansive green views and a quieter suburban environment.

The residential collection includes **1, 2 and 3-bedroom apartments**, complemented by a limited selection of **3-bedroom townhouses**. Published project specifications place residence sizes from approximately **719 sq. ft. to 2,610 sq. ft.**, with the largest layouts belonging to the three-bedroom townhouse collection.

The apartments are designed around open-plan living spaces, floor-to-ceiling glazing and private balconies, allowing natural light to enter the residences while maximising views toward the golf course and landscaped surroundings. The larger townhouse residences provide approximately **2,610 sq. ft.** of space, creating a more family-oriented alternative to the project's apartment collection. Current first-sale listings show these three-bedroom townhouses at around **AED 5.25 million**, although availability and pricing can change.

Golf Trails forms part of the broader **Emaar South** lifestyle environment. The master community combines residential neighbourhoods with an **18-hole championship golf course**, parks, recreational areas and supporting retail and dining infrastructure. This allows Golf Trails residents to benefit from a mature masterplan rather than relying exclusively on facilities within the individual building.

The location is particularly significant for long-term buyers. Emaar places Emaar South approximately **5 minutes from Al Maktoum International Airport, 15 minutes from Expo City, 25 minutes from Dubai Marina, 35 minutes from Downtown Dubai and 45 minutes from Dubai International Airport.**

This positioning gives Golf Trails exposure to the continued development of the **Dubai South corridor** and the major expansion planned around Al Maktoum International Airport. For residents working around Dubai South, Expo City, Jebel Ali and the airport district, the community also provides a practical alternative to living in central Dubai.

Golf Trails is scheduled for completion in **Q4 2030**, with current project information specifying **October 2030**. The payment structure is **80/20**, comprising **10% on booking, 70% across seven construction instalments and 20% upon handover.**

From an investment perspective, Golf Trails combines **Emaar branding, direct golf-course positioning and exposure to Dubai South's long-term expansion.** The 2030 handover also provides a relatively long investment horizon compared with earlier Emaar South launches.

However, Emaar South has a growing pipeline of golf-oriented projects, including Golf Hills, Golf Hills 2, Golf Meadow, Golf Vale and Golf Fields. Buyers should therefore pay particular attention to **entry price per square foot, golf-course orientation, floor level, layout efficiency and the scarcity of the selected unit type.** Three-bedroom townhouses may offer a different investment profile because of their substantially larger size and more limited inventory compared with apartments.
